NPIC NOTICE  
NO 1-18

ORGANIZATION  
27 December 1979

CONTROL AND INTEGRATION GROUP

1. MISSION

The Control and Integration Group is responsible to the Director, NPIC for managing and directing the centralized programming and budgeting activities of NPIC; for preparing coordinated plans relating to current and future national reconnaissance programs and issues that affect national imagery exploitation; for insuring the integration of NPIC plans and projects into the imagery exploitation process; for developing and operating a master scheduling and control system; and for providing the Secretariat to the NPIC Control Board.

2. FUNCTIONS

The Control and Integration Group will:

- a. Develop and administer NPIC budget submissions to CIA and DIA and provide support to the Director, NPIC in the preparation of budget justifications to higher reviewing authorities.
- b. Analyze utilization of NPIC personnel and funding resources and recommend to the Director allocation of resources among Center Components.
- c. Define and evaluate the characteristics of present and future imagery collection systems, intelligence requirements, and exploitation technology that affect NPIC and the Intelligence Community.
- d. Develop NPIC plans and operational concepts for imagery exploitation and support; establish goals to implement these plans.
- e. Define the necessary internal and external interfaces of all major projects and programs affecting NPIC and provide for control and integration of these activities.
- f. Maintain a master NPIC scheduling and control system which identifies project milestones, issues and accomplishments.
